Dear Mr. Lamoncha:

On behalf of the students and faculty of the Eisenhower School for National Security and Resource Strategy, please accept my sincerest thanks for hosting our 2017 Advanced Manufacturing (ADMAN) Industry Study students.

Your overview and tour of Humtown Products was of immense value to our students. The level of insight you provided was of great value in expanding the knowledge of 3D printed sandcasting and how a business survives in the dynamic additive manufacturing industry. The class will use the knowledge you shared in upcoming deliverables (both written and oral) to a host of senior national security and industry leaders this May.

Thank you for taking the time to meet with our students. We look forward to an enduring relationship between the Eisenhower School and Humtown Products to ensure future classes can continue to benefit from your expertise.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul H. Fredenburgh III", is written over the typed name.

Paul H. Fredenburgh III
Brigadier General, U.S. Army
Commandant
